Dear Applicant,

Thank you for your interest in the Agricultural Best Management Practices Loan Program. Enclosed are two forms needed to apply for a low interest loan through this program. Low interest loan funds of 3-1/2 to 4 percent are available for projects that prevent or mitigate nonpoint source pollution.

Projects must be located within the boundaries of Le Sueur County to be eligible through the Le Sueur County SWCD. If the project is located in another county, check with the local SWCD for information on how to apply in that county.

You must complete the Ag BMP Loan Form that details information about your project and the Loan/Lease Application which contains financial information about your operation. Applications will be accepted on an ongoing basis. Mail completed forms to the following:
